CAREER OBJECTIVE

Enthusiastic Computer Science undergraduate with a solid foundation in programming, algorithms, and software development. Proficient in C++, Python, and experienced with web development and AWS cloud. Eager to apply problem-solving abilities and technical expertise to contribute to innovative projects.

EDUCATION

SR University <i>BTech in Computer Science; CGPA: 9.3</i>	Warangal, Telangana May 2026
SR Junior College <i>MPC, Percentage: 96%</i>	Hanamkonda March 2022
Thushara High School <i>SSC, Percentage: 95%</i>	Hanamkonda March 2020

TECHNICAL SKILLS

- **Programming:** C, Python, C++ (Familiar)
- **Web:** HTML, CSS, JavaScript
- **Databases:** SQL
- **Tools:** Visual Studio Code, Google Colab
- **Source & Version Control:** Git, GitHub
- **Other Skills:** Machine Learning, Basic AWS Cloud

PROJECTS

Optimizing Neural Networks Using Cheetah Optimizer — Python, ML	GitHub April 2025
• Integrated a custom Cheetah Optimizer into an Artificial Neural Network (ANN) to replace traditional optimizers like Adam, Genetic and SGD. • Built and trained an ANN on a heart disease dataset with focus on accuracy and convergence trends. • Compared optimizer behavior through detailed analysis and visualizations.	
Hire Video Editors Website — HTML, CSS, JavaScript	GitHub Oct 2024
• Built a dedicated web platform to bridge the gap between clients and freelance video editors, simplifying the hiring process. • Enabled real-time collaboration and secure communication between clients and editors through a streamlined interface. • Designed intuitive features such as searchable editor profiles, skill-based filtering, and a task-tracking dashboard to enhance user experience beyond traditional freelancing portals.	

CERTIFICATIONS

- Frontend Developer- **Meta**
- AWS Certified Cloud Computing - **AWS**
- Data Structure - **Coursera**
- Microsoft Certified: Azure Fundamentals - **Mircosoft**

ACHIEVEMENTS

- Secured **13th place in a 12-hour college-level hackathon**, showcasing problem-solving and teamwork.
- Successfully completed the **GFG 160-Day Coding Challenge** with consistent daily problem solving in data structures and algorithms.
- Recognized as the **semester topper for 3rd year 1st semester** by the HOD.
