CAREER OBJECTIVE

Computer Science undergraduate with a solid foundation in programming, data structures, algorithms, and software development. Proficient in Python, C, and SQL, with working knowledge of C++, machine learning, and cloud platforms. Eager to apply strong problem-solving and technical skills to design and develop reliable, scalable, and efficient software solutions.

EDUCATION

SR University <i>BTech in Computer Science; CGPA: 9.3</i>	Warangal, Telangana May 2026
SR Junior College <i>MPC, Percentage: 96%</i>	Hanamkonda March 2022
Thushara High School <i>SSC, Percentage: 95%</i>	Hanamkonda March 2020

TECHNICAL SKILLS

- **Programming:** C, Python, C++ (Familiar)
- **Web:** HTML, CSS, JavaScript
- **Databases:** SQL
- **Tools:** VS Code, Google Colab
- **Version Control:** Git, GitHub
- **Other Skills:** Machine Learning, Basic AWS Cloud

PROJECTS

Optimizing Neural Networks Using Cheetah Optimizer — Python, ML	GitHub April 2025
• Built and trained an ANN on a heart disease dataset (303 samples, 14 features), achieving 98.4% accuracy with Adam, RMSprop, and SGD. • Integrated and evaluated a custom Cheetah Optimizer and Genetic Optimizer; observed 97.3% accuracy with Cheetah Optimizer and 89.4% with Genetic Optimizer. • Compared the performance of optimizers (Adam, SGD, RMSprop, Genetic Algorithm, Cheetah Optimizer) through detailed analysis and visualizations, demonstrating up to a 12% improvement in convergence speed and model accuracy.	
Smart Seller Dashboard for Ecommerce Management — Full Stack — UI/UX, React.js	GitHub Nov 2025
• Built responsive and reusable UI components using React.js for product listing, order management, and analytics screens, ensuring a clean and user-friendly interface. • Collaborated closely with backend and AI teams to integrate key functionalities such as low-stock alerts, Product Quality Index (PQI), and smooth dashboard navigation for both buyers and sellers. • Improved overall user experience by contributing to layout structuring, color themes, dark mode suggestions, and accessible UX flows to enhance usability and visual consistency.	

CERTIFICATIONS

- Frontend Developer - **Meta**
- AWS Certified Cloud Computing - **AWS**
- Python Essentials - **Cisco**
- AZ-900: Azure Fundamentals - **Microsoft**

ACHIEVEMENTS

- Recognized as the **semester topper for 3rd year 1st semester** by the Head of the Department (HOD) for academic excellence.
- Secured **13th place in a 12-hour college-level hackathon**, demonstrating strong problem-solving and teamwork skills.
